"THE MULTITUDES OF LAYERS WEAVE THEIR WAY THROUGH YOUR EARS, TANGLING THEMSELVES UP IN YOUR BRAIN MATTER, AND PIQUING YOUR SENSES TO MAXIMUM ATTENTIVENESS." -THE SODA KILLERS

Looking for something to blow your mind? "Dying Is Easy," D.I.E.'s debut album, is a trip back to the golden days of Wax Trax!, mixing well-placed samples, with heavily layered drum programming, and melodic yet brutal synths and guitars. Steve Hodge (mix engineer for Boston, Michael and Janet Jackson) said of the opening song, *Sights & Sounds*: "Great piece, lots of unexpected builds." For fans of KMFDM, My Life with the Thrill Kill Kult, and Juno Reactor.

D.I.E. is a multi-regional project, featuring guitarist Jason Wright in Ukiah, California, and Keyboardist/Producer J. 'Bunnie' Dreher in SLC, Utah. Taking in influences from industrial & progressive rock, metal, trip hop, and a wide array of world music, D.I.E. is the soundtrack to reality.

Keep your sonic palate fresh and take a listen. "Dying Is Easy" will be available online and record stores throughout Minnesota and Utah, Tuesday, March 28th. With D.I.E., you know you are getting your value worth. Keep an eye out for a west coast tour in early 2014.
